Skills:

Wordpress set-up and customization
PHP, HTML/CSS.

Technology used:

Wordpress

Category:

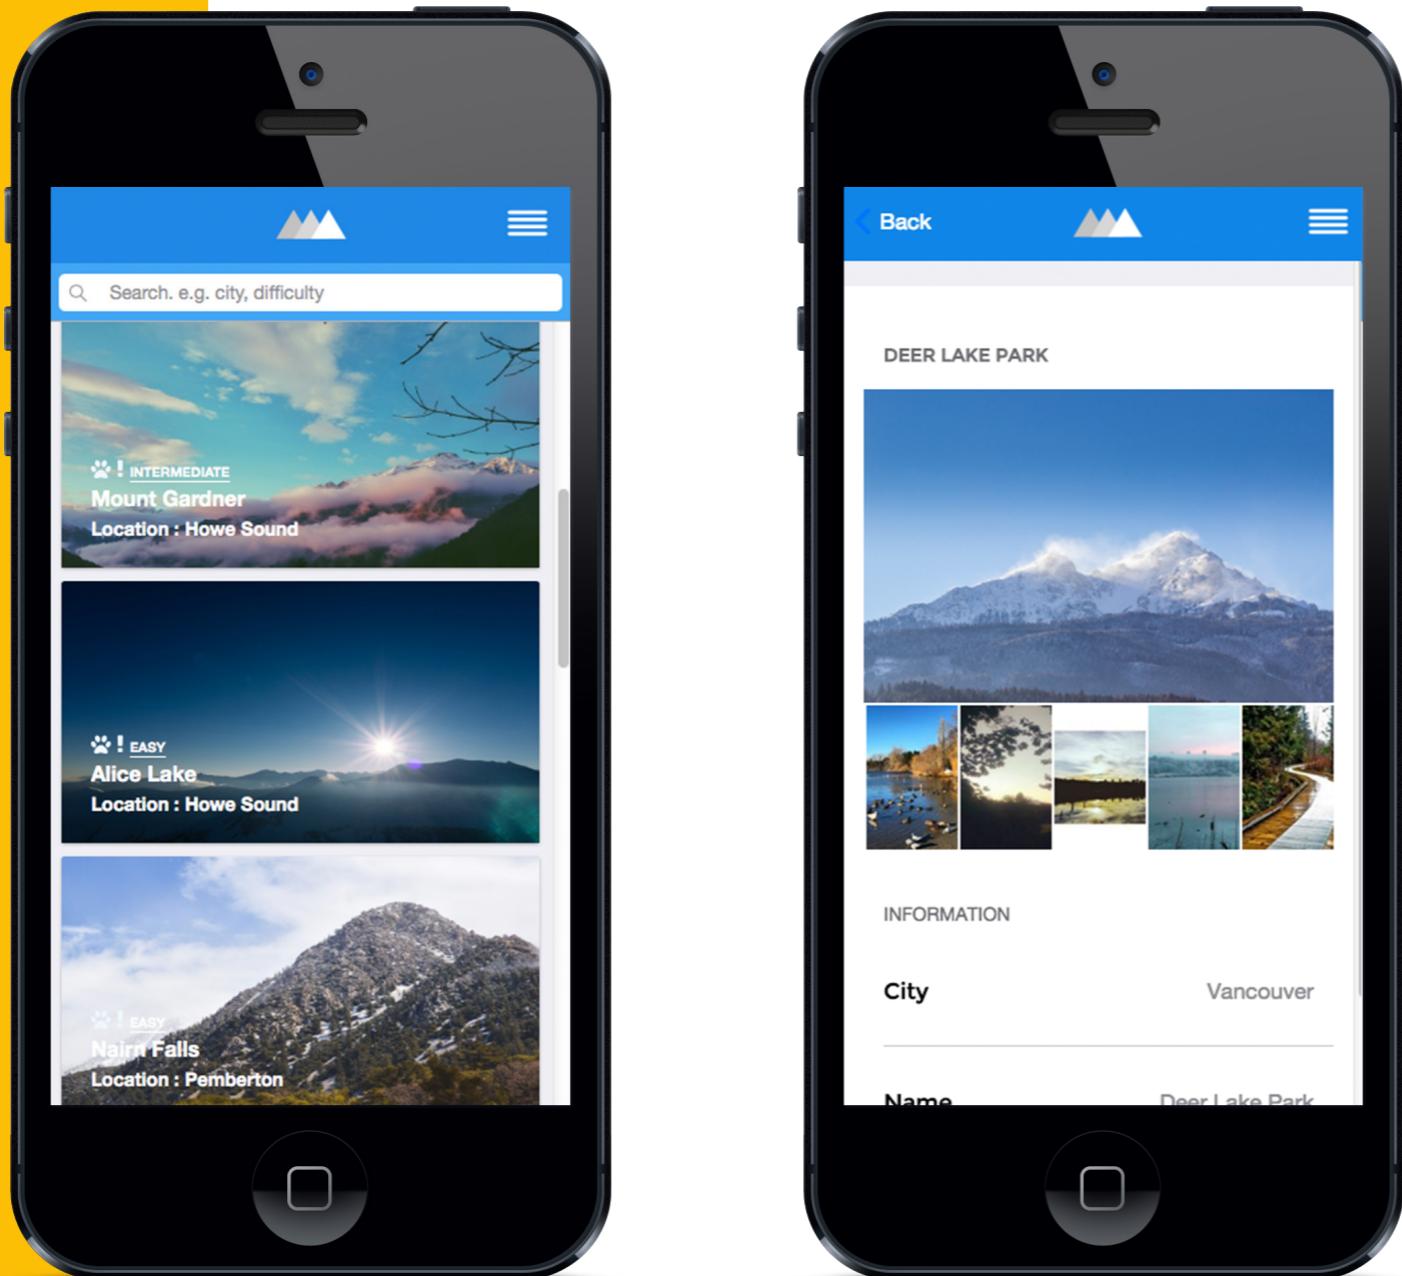

Contract

Year:

2015

The image displays the Low Mileage Cars Ltd. website's responsive design across two devices: a desktop computer and a smartphone. The desktop version features a prominent search bar on the right, a large image of a dark grey 1999 Subaru Legacy B4 RSK 4WD, and a sidebar titled 'Top Deals' listing three vehicles. The smartphone version shows a similar layout with a search bar, a featured car (2003 Dodge Grand Caravan Sport), and a 'New Arrivals' section. The website's logo, 'lmc low mileage cars', is visible at the top of both screens.

Mountain Climbers App

Details

www.mclimbers.com

Context:

An app mimicing native iOS style and interaction patterns dedicated to provide BC hiking lovers with reliable and user-friendly trail database. Allows to post comments and rate the trails. Shows trails based on the user's location.
